

clinically proven

to aid in blood sugar management

A Health Crisis

We face a health epidemic. Increasingly sedentary lifestyles and a modern diet high in calories, refined sugars, and saturated and trans fats have left millions of people at risk of obesity and elevated blood sugar.

But you have a new ally in the wellness war. Patented GlucAffect® is a groundbreaking nutritional approach to blood sugar management. A delicious cinnamon cream flavor and rapid dissolvability make GlucAffect the perfect addition to your morning coffee, afternoon tea or one of your daily Reliv shakes.

Don't become another statistic. Get in control with GlucAffect.

Clinically Proven

In an eight-week, placebo-controlled clinical study of 50 overweight individuals with elevated blood glucose levels, test subjects taking four daily servings of GlucAffect lowered their fasting blood glucose levels to healthy blood sugar values. In addition, those individuals taking GlucAffect lost an average of nearly 16 pounds during the eight-week period.

Nutrition at a Higher Level

Research shows a naturally occurring peptide called lunasin is responsible for many of soy's documented health benefits, from cholesterol reduction to improved immunity. Lunasin is the first dietary compound identified to work at the epigenetic level within the cell to promote overall cellular health. Reliv's exclusive LunaRich® soy powder delivers more bioactive lunasin — often many times more — than any other soy powder available.

GlucAffect targets multiple symptoms of metabolic syndrome.

A Triple Threat Against Metabolic Syndrome

According to the American Heart Association, 47 million Americans have metabolic syndrome — a cluster of symptoms including high blood sugar, obesity and cardiovascular problems.

Blood Sugar Management. A patented formula combines the power of cutting-edge ingredients such as Pycnogenol®, cinnamon and banaba leaf extract.

Weight Loss. A clinical study showed GlucAffect to aid in weight loss — study participants lost an average of 16 pounds over eight weeks.

Cholesterol Improvement. GlucAffect is better than ever with the addition of LunaRich® soy powder for cholesterol management.
